Project Proposal

(approximately 750 words – not including references)

Name	Melissa Silcock
MA Course	Interior Design
Date	6 November
Version Number	
Project Title / Research Question	

Proposed study / What?

(100 word limit)

Give a brief description of your proposed study.

I intend to redevelop / add to a section of University campus to create an inclusive space that reflects and encourages the multicultural aspect of University life and the town that is Preston

Rationale / Why?

(100 word limit)

State the reasons behind your proposed study, including how it relates to the subject area and previous work in the field. You should include references to support your reasons.

Our University is one of the most diverse student body in the North West. Moving to a foreign country to study and live is a hard task in an alien environment, a second language and the need to meet new people is daunting. Every student struggles with fitting in and coping with life at University our campus should accommodate every nationality offering spaces for thought and socialisation.

Aim & Objectives

(200 word limit)

Clearly state the principal aim of the study. You are advised to state a single aim if possible. Then state the main objectives that need to be achieved in order to meet the aim.

To create a new kind of space that utilises unused areas borrowing from space that isn't owned. My main objective is to create a calming welcoming environment inclusive to everyone that encourages socialisation and the sharing of cultural experiences that make up the diverse student body that is UCLAN. University should be a space where everyone is valued, encouraged and supported. My proposal would enable people from all walks of life to feel part of the UCLAN family and to make the time they have here as fulfilled as possible.

Plan / How?

(250 word limit)

Produce a plan of work. This should contain a breakdown of the tasks to be undertaken, the methodologies employed in stages or phases and include an indication of the associated timescales. You may present this as a Gant chart.

Through further research and gathered information I will substantiate the need for my proposed space.

- Multicultural Preston
- Experiences/ thoughts of students and people who moved and now reside in Preston
- Parasitical design/ case studies
- Parasites and how parasitism can feed ideas and design
- Calming and inclusive interior spaces.

Intended Outcomes of Project / What - solution?

(100 word limit)

State your proposed outcomes and the new contribution it may add to previous work in the field.

Create a space that redefines the identity of the University and promotes the multicultural campus we share making every students time at University welcoming and Inclusive.
